DETAILED ACTION

Allowable Subject Matter

1. Claims 23-36 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance:

Regarding claim 23, the prior art fails to disclose or make obvious a device for optically inspecting and evaluating a sample having a light source for generating a probe beam, said light source include a first lamp having broadband emissions in the visible spectrum and a second lamp having broadband emissions in the ultraviolet spectrum and a laser diode emitting light in the blue visible region of the spectrum; and a detector for monitoring the reflected probe beam and generating output signals as a function of wavelength, and in combination with the other recited limitations of claim 23. Claims 24-28 are allowed by the virtue of dependency on the allowed claim 23.

Regarding claim 29, the prior art fails to disclose or make obvious a device for optically inspecting and evaluating a sample having a first lamp having broadband emissions in the visible spectrum; a second lamp having broadband emissions in the ultraviolet spectrum; a narrowband light source for emitting narrowband output; means for combining the output from the first and second lamps and the narrowband light source to obtain a broadband probe beam, with the wavelength of the narrowband light source being selected to compensate for a reduced output intensity of the emissions from the first and second lamps; a detector for monitoring the reflected probe beam and generating output signals as a function of wavelength, and in combination with the other recited limitations of claim 29. Claims 30-36 are allowed by the virtue of dependency on the allowed claim 29.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael P. Stafira whose telephone number is 571-272-2430. The examiner can normally be reached on 4/10 Schedule Mon.-Thurs..
